BACKGROUND: The Advisory Committee was established by Public Law 111-347 (The James Zadroga 9/11 Health and Compensation Act of

2010, Title XXXIII of the Public Health Service Act), enacted on January 2, 2011 and codified at 42 U.S.C. sec. 300mm-300mm-61.

PURPOSE: The purpose of the Advisory Committee is to review scientific and medical evidence and to make recommendations to the Administrator of the World Trade Center (WTC) Health Program regarding additional WTC Health Program eligibility criteria and potential additions to the list of covered WTC-related health conditions, as well as providing consultation on research to the Administrator of the World Trade Center Health Program. Title XXXIII of the Public Health Service Act established within the Department of Health and Human Services (HHS), the World Trade Center (WTC) Health Program, to be administered by the Administrator of the World Trade Center Health Program. The WTC Health Program provides: (1) Medical monitoring and treatment benefits to eligible emergency responders and recovery and cleanup workers (including those who are Federal employees) who responded to the September 11, 2001, terrorist attacks, and (2) initial health evaluation, monitoring, and treatment benefits to residents and other building occupants and area workers in New York City, who were directly impacted and adversely affected by such attacks ("survivors"). Certain specific activities of the Administrator of the World Trade Center Health Program are reserved to the Secretary, HHS, to delegate at her discretion;

other duties of the Administrator of the World Trade Center Health Program not explicitly reserved to the Secretary, HHS, are assigned to the Director, NIOSH. The administration of the Advisory Committee established under Section 300mm-1(a) is left to the Director of NIOSH in his role as Administrator of the World Trade Center Health Program. CDC and NIOSH provide funding, staffing, and administrative support services for the Advisory Committee. The charter was reissued on May 12, 2015, and will expire on May 12, 2017.

MATTERS FOR DISCUSSION: The Advisory Committee will continue its deliberations from the meeting on June 4, 2015, addressing the need for research on developmental or health effects in children. The agenda will include presentations on children's health research that has been conducted related to exposures from the 9/11 terrorist attacks. Also, a panel of children's researchers will discuss children's research issues with the Advisory Committee.

The agenda is subject to change as priorities dictate.
